

## **Letter of Recommendation - Sagle**

*United Rentals Burton for Geelan Property Group*

I am pleased to provide this letter of recommendation for Sagle, following their delivery of our commercial project in Adelaide for United Rentals.

From first engagement through to completion, our experience working with Sagle was exceptional. We own and have developed a number of commercial and industrial projects, and I can confidently say this was the best experience we have had. The finished product is outstanding, the process was well managed, and the project was delivered with excellent communication, collaboration and care.

Sagle's Design & Construct capability was clear to us from the outset, and we knew we were in safe hands with the project team. They managed the technical aspects of the build well and delivered the project to a very high standard. This was particularly important to us as long-term asset owners, where the quality, durability and ongoing performance of the asset matter well beyond practical completion.

The communication and collaboration from Sagle's team was a key part of the success of the project for us. We received clear and consistent updates, risks were raised early, and we always felt across the key issues. The project was approached as a genuine partnership, and Sagle worked in collaboration with us, our fitout contractors and the tenant throughout.

Early pricing was logical, transparent and accurate, which gave us confidence in the process. As design, scope and cost matters arose, the team gave clear advice and practical options, allowing us to make informed decisions, as quickly as possible, without unnecessary surprises.

Programme and handover were also handled very well by the project team. The project was completed within approximately one week of the original programme, which we consider an excellent result. Handover was smooth, our fitout requirements were supported seamlessly, and defects were addressed promptly.

Overall, this was the easiest and most stress free commercial project we have been involved with, and we are thankful to the whole Sagle team who had input into the project.

I would have no hesitation recommending Sagle to others, and we look forward to an opportunity to work with them again.

**Yours sincerely,**

**Tobias Dyer-Smith**  
General Manager
